1 Introduction

Article 18 of Regulation (EU) No. 913/2010 obliges the Management Board of the Corridor to publish a list and characteristics of terminals belonging to the Corridor in the CID.

In accordance with Article 2.2c of Regulation (EU) No. 913/2010, 'terminal' means "*the installation provided along the freight corridor which has been specially arranged to allow either the loading and/or the unloading of goods onto/from freight trains, and the integration of rail freight services with road, maritime, river and air services, and either the forming or modification of the composition of freight trains; and, where necessary, performing border procedures at borders with European third countries*".

According to Implementing Regulation (EU) 2177/2017, operators of service facilities, hence also terminal operators, are obliged to make available detailed information about their facilities.

The purpose of this CID Book 3 is to give an overview of the terminal landscape along the Corridor while also including relevant information on the description of the terminals via links.

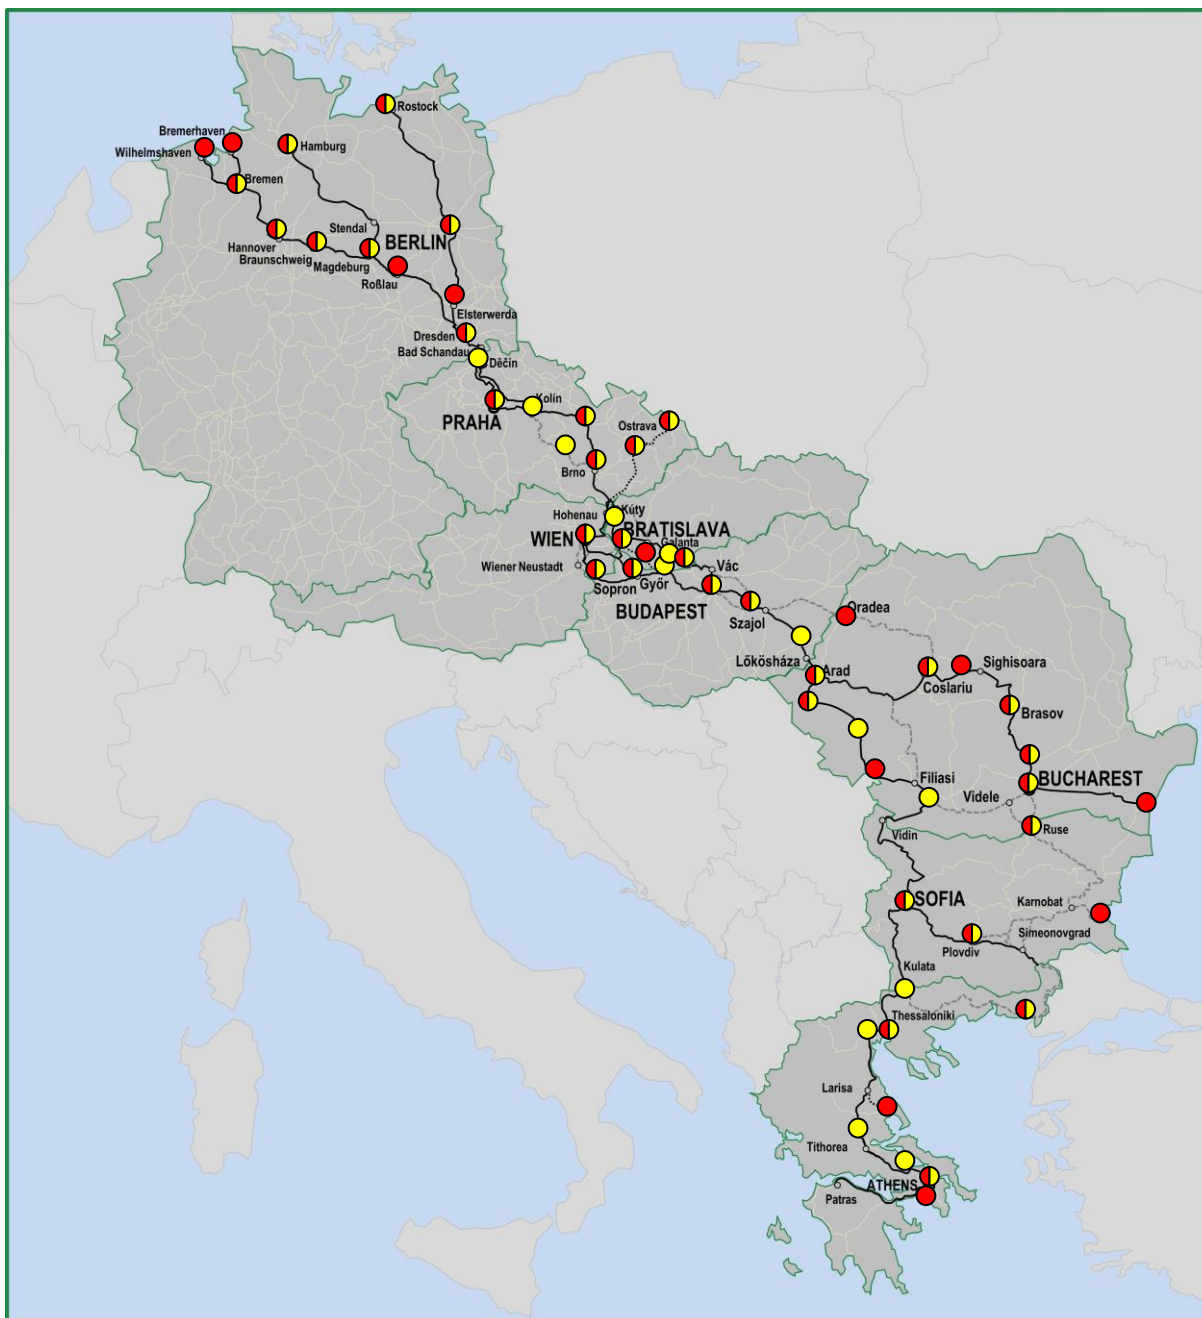

Furthermore, in accordance with Article 8.7 of Regulation 913/2010, the Corridor set up the Terminal Advisory Group (TAG). For details, please refer to Book 1.

2 Terminals

This chapter includes a global overview of the terminals on Corridor Orient/East-Med with a map of locations together with the list of terminals.

2.1 Terminal overview

This Terminal Overview gives a geographic overview of the terminals along the Corridor.

The overview of Terminals along this Corridor can also be found in CIP (<https://cip.rne.eu/>)

2.2 Terminal list

The terminal list gives a summary of the terminals along the Corridor, together with a link to a detailed terminal description, if provided by the terminal.
